- **First day of class-April 30th/May 1st**
- **End of add/drop period- May 7th**

University of Minnesota Coding Bootcamp

April & May Part-Time 2018

Hello! Congratulations on your admission to the University of Minnesota Coding Bootcamp. I could not be more thrilled to welcome you to this exciting and rigorous program. I will be here to support you along the way and will be your primary point of contact for anything you may need.

Here are a few things to know before class starts:

1. Your pre-work is due Monday, April 30th.
2. Sign up for Slack two weeks in advance of class starting
3. Create GitLab login credentials
4. Log in to bootcampspot-v2.com one week before class begins with your assigned login credentials
5. Slack messages will not be stored, so save messages for later if you'd like to reference to them
6. Be ready to collaborate! All group projects are mandatory.

Absence Policy: Students are expected to attend all class sessions. If a student must miss a class session, the student must submit the Absence Request 1 weeks prior to the absence. Absences will only be 'excused' from the total absences allowed if the student:

- Commits to participating in the class virtually
- Submits a class attendance assignment to Andrea Hansen within 1 week after the excused absence

Graduation Policy: Graduation is simple! Students must meet the following requirements:

1. No more than 4 missed class sessions
2. No more than 2 missed individual assignments
3. 100% participation in group projects
4. 100% Paid-to-date on tuition payments

Need Help? Before and after every class, your instructional team will be on-site to host in-person office hours. Office hours are 45 minutes before class and 30 minutes after class during the week.

Orientation Webinar Event: The virtual orientation will be hosted via **Zoom at 6:00pm on April 24th**. You will receive a calendar invite with the date and time. Please be sure you make time to attend. This will be our chance to review classroom logistics, expectations, and questions!
